ETHERMA[®]
INGENIOUS HEATING

QUICK FIX SOLU TIONS

INFRARED HEATING PANELS AS ADDITIONAL HEATING

LAVA® BASIC-DM

Infrared heating panel for ceilings and walls

- + Suitable for ceiling and wall mounting
- + Infrared heat noticeable within minutes
- + Maximum radiation to the front due to the optimally insulated back
- + Ideal for ceiling mounting due to a lightweight construction
- + Simple (subsequent) mounting
- + Maintenance-free
- + Quality Made in Austria

LAVA® STAND

The flexible standing infrared heating panel

- + Infrared heat noticeable within minutes
- + Additional wall mounting set available (sold separately)
- + Integrated fold-out stand
- + Carrying handle on the unit for easy transport
- + Integrated, electronic control LAVA®-R
- + Qualität Made in Austria

LAVA® BATH 2.0 PURE

Bathroom infrared heating panel with a towel rail

- + One towel rail LAVA® Halti included – up to 2 more available as an accessory
- + Infrared heat noticeable within minutes
- + Plug & play system for different, individual control options
- + Highest safety against overheating
- + Easy (subsequent) mounting
- + Maintenance-free
- + Quality Made in Austria

LAVA® DESK 2.0

Under-table infrared heating panel

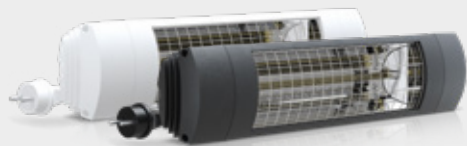

- + Under-table & wall mounting
- + Comfortable infrared heat
- + Timer function (LAVA2-DESK-80-T)
- + 3-level adjustable (LAVA2-DESK-80-T)
- + Easy mounting with 4 screws
- + Only 15 mm thin
- + Maintenance-free
- + Quality Made in Austria

OUTDOOR INFRARED HEATERS FOR PRIVATE & COMMERCIAL USE

ETHERMA EXO[®] COMFORT

Comfort infrared heater without and with integrated control system

- + Innovative Infrared-gold halogen lamp
- + Fast heat reaction
- + Compact design - mounting possible on umbrellas & markers
- + Suitable for ceiling and wall mounting
- + Electronic safety shutdown when intelligent position sensor detects a change in position or orientation
- + RC models with ON/OFF switch, timer and short heating function - ideal e.g. in the catering industry for smoking areas

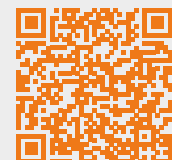

SOLUTIONS FOR HALLS AND INDUSTRIAL BUILDINGS

ETHERMA EEZ

Industrial ceiling heater

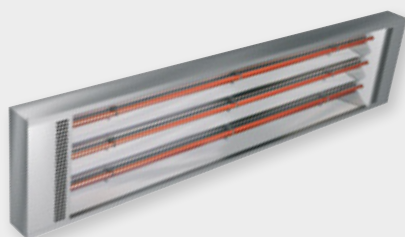

- + Full area heating or zone heating
- + 2.5 - 4 m mounting height
- + Hygienic room climate
- + Dark heater - no visible light
- + Surface structure optimizes radiation
- + Rust-proof body
- + Also for covered outdoor area
